## Preface

---

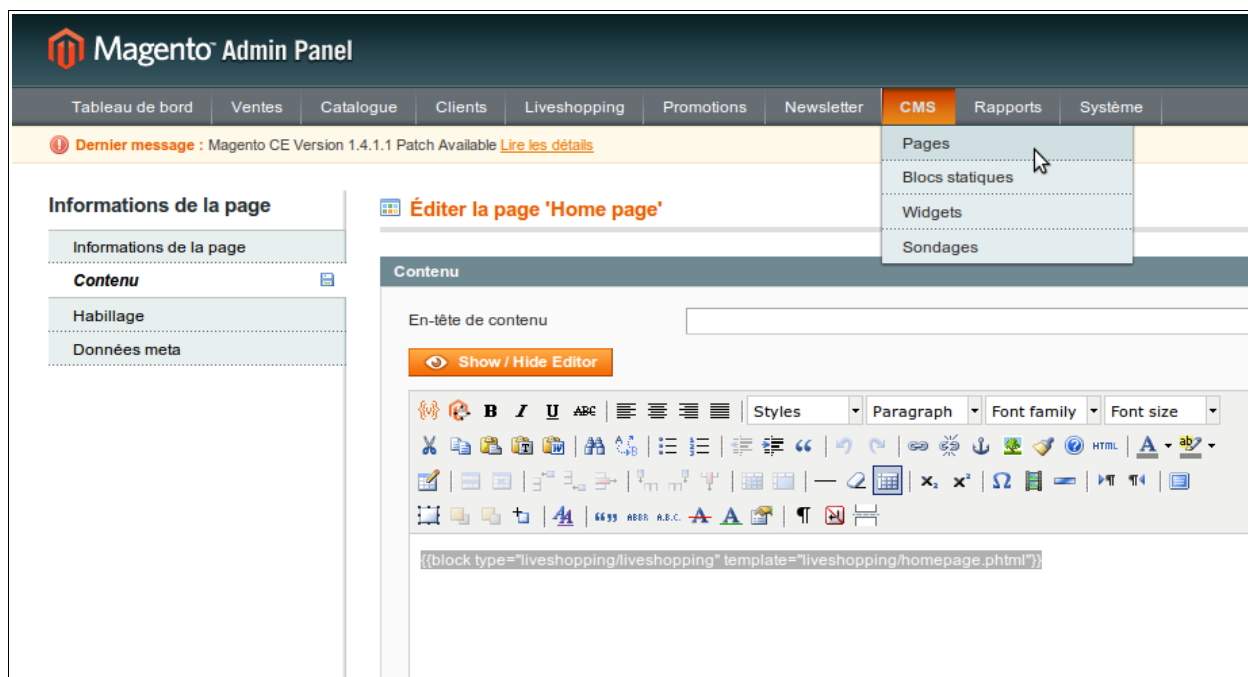

The layout of Liveshopping's blocks can be edited directly in a CSS file.  
This file is located here :  
« /app/skin/frontend/default/default/liveshopping/css/style.css »

## How to integrate Liveshopping on my homepage?

Liveshopping permits to easily display a block on the homepage.

To insert this block you just have to add this line :

« {{block type="liveshopping/liveshopping" template="liveshopping/homepage.phtml"}} »  
 in CMS >> Page > Homepage || Content

The displayed block template is here :

« /app/design/frontend/default/default/template/liveshopping/homepage.phtml »

You will be able to easily change the displaying parameters in the module's parameters section in admin panel.

## How to integrate Liveshopping on the product page?

### **Preface**

Magextend knows about the difficulties encountered during integration of module that modify Frontend's layout.

This is why we offer you several functions to make your work easier.

Those functions can be found in this file :

« /app/code/community/Magextend/Liveshopping/Helper/Data.php »

Integration functions list :

<b>Fonction's name</b>	<b>Description</b>
getCounterHtml()	Return the Liveshopping counter
getYousaveHtml()	Return the Liveshopping saving
getPercentHtml()	Return the saving percentage
getThermometerHtml()	Return the thermometer which represent the Liveshopping stock availability
getImageHtml()	Return the generated Liveshopping image

## Integration

Go in this file : /app/design/frontend/base/default/template/catalog/product/view.phtml  
 C'est dans ce fichier que vous allez appeler les fonctions présentées ci dessus.  
 It's in this file in which you will use the functions presented bellow.

Original file (view.phtml) :

```

54
55     <?php if ($this->canEmailToFriend()): ?>
56         <p class="email-friend"><a href="<?php echo $this->helper('catalog
57     <?php endif; ?>
58
59     <?php echo $this->getReviewsSummaryHtml($product, false, true)?>
60     <?php echo $this->getChildHtml('alert_urls') ?>
61     <?php echo $this->getChildHtml('product_type_data') ?>
62     <?php echo $this->getTierPriceHtml() ?>
63     <?php echo $this->getChildHtml('extrahint') ?>
64
65     <?php if (!$this->hasOptions()):?>
66         <div class="add-to-box">
67             <?php if($product->isSaleable()): ?>
68                 <?php echo $this->getChildHtml('addtocart') ?>
69                 <?php if( $this->helper('wishlist')->isAllow() || $compare
70                     <br/><br/><span class="or"><?php echo $this->__('OR')
71                 <?php endif; ?>
72             <?php endif; ?>
73             <?php echo $this->getChildHtml('addto') ?>
74         </div>
75         <?php echo $this->getChildHtml('extra_buttons') ?>
76     <?php else: ?>
77         <?php echo $this->getChildHtml('addto') ?>
78     <?php endif; ?>
79
    
```

Edited file (view.phtml) :

```

55     <?php if ($this->canEmailToFriend()): ?>
56         <p class="email-friend"><a href="<?php echo $this->helper('catalog/product')->getEmailToFriendU
57     <?php endif; ?>
58
59     <?php echo $this->getReviewsSummaryHtml($product, false, true)?>
60     <?php echo $this->getChildHtml('alert_urls') ?>
61
62 <br/><?php echo Mage::helper('liveshopping/data')->getCounterHtml($product); ?>
63 <div style="float:right;"><?php echo Mage::helper('liveshopping/data')->getThermometerHtml($product); ?></div>
64
65     <?php echo $this->getChildHtml('product_type_data') ?>
66     <?php echo $this->getTierPriceHtml() ?>
67
68 <?php echo Mage::helper('liveshopping/data')->getYouSaveHtml($product); ?>
69 <br/>
70 <?php echo Mage::helper('liveshopping/data')->getPercentHtml($product); ?>
71
72     <?php echo $this->getChildHtml('extrahint') ?>
73
74     <?php if (!$this->hasOptions()):?>
75         <div class="add-to-box">
76             <?php if($product->isSaleable()): ?>
77                 <?php echo $this->getChildHtml('addtocart') ?>
78                 <?php if( $this->helper('wishlist')->isAllow() || $compareUrl=$this->helper('catalog/p
79                     <br/><br/><span class="or"><?php echo $this->__('OR') ?></span>
80                 <?php endif; ?>
81             <?php endif; ?>
82             <?php echo $this->getChildHtml('addto') ?>
83         </div>
    
```

Explanation :

As you can see the grey highlighted lines are those which has been added.

The line 62 display the Javascript counter.

The line 63 display thermometer which represent the stock availability.

The line 68 add the Liveshopping saving.

The line 70 display the saving percentage

## How integrate Liveshopping on product's grid and list?

The integration is similar to the product page one.

### ***Integration***

Go to this file : « /app/design/frontend/base/default/template/catalog/product/list.phtml »

The integration of this file is splited on two part.

- The list part
- The grid part

## List

To begin we are going to integrate the product list.

### Original file (list.phtml) :

```

47 <?php foreach ($_productCollection as $_product): ?>
48 <li class="item"<?php if( ++$_iterator == sizeof($_productCollection) ): ?> last<?php endif; ?>">
49 <?php // Product Image ?>
50 <a href=""<?php echo $_product->getProductUrl() ?>" title=""<?php echo $this->stripTags($this->getImageLabel($_product, 'small_image'), null, true) ?>">
51 <?php // Product description ?>
52 <div class="product-shop">
53 <div class="f-fix">
54 <h2 class="product-name"><a href=""<?php echo $_product->getProductUrl() ?>" title=""<?php echo $this->stripTags($_product->getName(), null, true) ?>">
55 <?php if($_product->getRatingSummary()): ?>
56 <?php echo $this->getReviewsSummaryHtml($_product) ?>
57 <?php endif; ?>
58 <?php echo $this->getPriceHtml($_product, true) ?>
59 <?php if($_product->isSaleable()): ?>
60 <p><button type="button" title=""<?php echo $this->__('Add to Cart') ?>" class="button btn-cart" onclick="setLocation(''<?php echo $this->getProductUrl() ?>')";">
61 <?php else: ?>
62 <p class="availability out-of-stock"><span><?php echo $this->__('Out of stock') ?></span></p>
63 <?php endif; ?>
64 <div class="desc std">
65 <?php echo $_helper->productAttribute($_product, $_product->getShortDescription(), 'short_description') ?>
66 <a href=""<?php echo $_product->getProductUrl() ?>" title=""<?php echo $this->stripTags($_product->getName(), null, true) ?>" class="link-wishlist">
67 </div>
68 <ul class="add-to-links">
69 <?php if($this->helper('wishlist')->isAllow()): ?>
70 <li><a href=""<?php echo $this->helper('wishlist')->getAddUrl($_product) ?>" class="link-wishlist"><?php echo $this->__('Add to Wishlist') ?></a></li>
71 <?php endif; ?>
72 <?php if($_compareUrl=$this->getAddToCompareUrl($_product)): ?>
73 <li><span class="separator">|</span> <a href=""<?php echo $_compareUrl ?>" class="link-compare"><?php echo $this->__('Add to Compare') ?></a></li>
74 <?php endif; ?>
75 </ul>
76 </div>
77 </li>
78 </li>
79 <?php endforeach; ?>

```

### Edited file (list.phtml)

```

47 <?php foreach ($_productCollection as $_product): ?>
48 <li class="item"<?php if( ++$_iterator == sizeof($_productCollection) ): ?> last<?php endif; ?>">
49 <?php // Product Image ?>
50 <?php
51 $img = Mage::helper('liveshopping/data')->getImageHtml($_product, 'default', 135);
52 if($img != '') {
53 echo '<a href=""<?php echo $_product->getProductUrl() ?>" title=""<?php echo $this->stripTags($this->getImageLabel($_product, 'small_image'), null, true) ?>">
54 } else { ?>
55 <a href=""<?php echo $_product->getProductUrl() ?>" title=""<?php echo $this->stripTags($this->getImageLabel($_product, 'small_image'), null, true) ?>">
56 <?php ?>
57 <?php // Product description ?>
58 <div class="product-shop">
59 <div class="f-fix">
60 <h2 class="product-name"><a href=""<?php echo $_product->getProductUrl() ?>" title=""<?php echo $this->stripTags($_product->getName(), null, true) ?>">
61 <?php if($_product->getRatingSummary()): ?>
62 <?php echo $this->getReviewsSummaryHtml($_product) ?>
63 <?php endif; ?>
64 <?php echo $this->getPriceHtml($_product, true) ?>
65 <?php echo Mage::helper('liveshopping/data')->getCounterHtml($_product, true) ?>
66 <?php if($_product->isSaleable()): ?>
67 <p><button type="button" title=""<?php echo $this->__('Add to Cart') ?>" class="button btn-cart" onclick="setLocation(''<?php echo $this->getProductUrl() ?>')";">
68 <?php else: ?>
69 <p class="availability out-of-stock"><span><?php echo $this->__('Out of stock') ?></span></p>
70 <?php endif; ?>
71 <div class="desc std">
72 <?php echo $_helper->productAttribute($_product, $_product->getShortDescription(), 'short_description') ?>
73 <a href=""<?php echo $_product->getProductUrl() ?>" title=""<?php echo $this->stripTags($_product->getName(), null, true) ?>" class="link-wishlist">
74 </div>
75 <ul class="add-to-links">
76 <?php if($this->helper('wishlist')->isAllow()): ?>
77 <li><a href=""<?php echo $this->helper('wishlist')->getAddUrl($_product) ?>" class="link-wishlist"><?php echo $this->__('Add to Wishlist') ?></a></li>
78 <?php endif; ?>
79 <?php if($_compareUrl=$this->getAddToCompareUrl($_product)): ?>
80 <li><span class="separator">|</span> <a href=""<?php echo $_compareUrl ?>" class="link-compare"><?php echo $this->__('Add to Compare') ?></a></li>
81 <?php endif; ?>
82 </ul>
83 </div>
84 </div>
85 </li>
86 <?php endforeach; ?>

```

### Explanation :

The line 50 of the original file has been pasted into the Liveshopping generated image integration code in the edited file.

The line 58 of the original file has been replaced by the lines 64 and 65 which respectively show the new price and add the Javascript counter.

## Grid

The integration of the grid part is similar to the list one.

Original file (list.phtml) :

```

89 <?php $i=0; foreach ($_productCollection as $_product): ?>
90 <?php if ($i++%$_columnCount==0): ?>
91 <ul class="products-grid">
92 <?php endif ?>
93 <li class="item"<?php if(($i-1)%$_columnCount==0): ?> first<?php elseif($i%$_columnCount==0): ?> last<?php endif; ?>">
94 <a href="<?php echo $_product->getProductUrl() ?>" title="<?php echo $this->stripTags($this->getImageLabel($_product, 'small_image'), null
95 <h2 class="product-name"><a href="<?php echo $_product->getProductUrl() ?>" title="<?php echo $this->stripTags($_product->getName(), null
96 <?php if($_product->getRatingSummary()): ?>
97 <?php echo $this->getReviewsSummaryHtml($_product, 'short') ?>
98 <?php endif; ?>
99 <?php echo $this->getPriceHtml($_product, true) ?>
100 <div class="actions">
101 <?php if($_product->isSaleable()): ?>
102 <button type="button" title="<?php echo $this->__('Add to Cart') ?>" class="button btn-cart" onclick="setLocation('<?php echo $this->getAddToCartUrl($_product) ?>')">
103 <?php else: ?>
104 <p class="availability out-of-stock"><span><?php echo $this->__('Out of stock') ?></span></p>
105 <?php endif; ?>
106 <ul class="add-to-links">
107 <?php if ($this->helper('wishlist')->isAllow()): ?>
108 <li><a href="<?php echo $this->helper('wishlist')->getAddUrl($_product) ?>" class="link-wishlist"><?php echo $this->__('Add to Wishlist') ?></a></li>
109 <?php endif; ?>
110 <?php if($_compareUrl=$this->getAddToCompareUrl($_product)): ?>
111 <li><span class="separator">|</span> <a href="<?php echo $_compareUrl ?>" class="link-compare"><?php echo $this->__('Add to Compare') ?></a></li>
112 <?php endif; ?>
113 </ul>
114 </div>
115 </li>
116 <?php if ($i%$_columnCount==0 || $i==$_collectionSize): ?>
117 </ul>
118 <?php endif ?>
119 <?php endforeach ?>

```

## Explanation :

The line 94 and 99 will be edited in the same way of lines 50 and 58 of the list part.
